

Lecture	MCQ/TF	Matching	Differences	Q/A (3)	Analytical (10)
1: Life	✓	✓	X	✓	X
2: Chemistry	-	X	X	X	X
3: Cell	-	X	✓	X	X
4: Cell Division	✓	✓	✓	✓	X
4: Central Dogma	✓	✓	X	X	X
6: Infection/Disease	✓	✓	✓	✓	✓
7: Genetics	✓	✓	✓	✓	✓
8: Plant	✓	X	X	X	X
9: Tissue	✓	✓	X	✓	X

Differences: Eukaryotic Vs Prokaryotic Cell. Cell wall Vs Cell membrane, Nucleus Vs Mitochondria, Mitosis Vs Meiosis, Innate Vs Adaptive Immunity, Antigen Vs Antibody, Genotype Vs Phenotype, Animal Cell Vs Plant Cell, Meiosis-1 Vs Meiosis-2, Genetics vs Epigenetics.

Short Question topics: Scientific Naming Rules, three domain system, characteristics of life, importance of meiosis/mitosis, crossing over, importance of recombination, types of tissue, Neuron, coordination between organ and organ system, negative feedback system. Everything from Lecture 6 and 7 for Q/A.

Analytical: Mode of transmission, reservoirs, vaccination. Epigenetics, Mendel's 1st and 2nd law, 3 type of dominance.
